

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 7  
11201 RENNER BOULEVARD  
LENEXA, KS 66219

OCT 15 2014

OFFICE OF  
THE REGIONAL ADMINISTRATOR

Ms. Rhonda Hamm-Niebruegge  
Director  
Lambert-St. Louis International Airport  
P.O. Box 10212  
St. Louis, Missouri 63145-0212

Dear Ms. Hamm-Niebruegge:

This is in follow-up to my August 13 letter in which I committed to share with you the information the U.S. Environmental Protection Agency receives from Bridgeton Landfill, LLC regarding their proposed options for the construction of an isolation barrier and the associated bird strike mitigation proposals. Enclosed is new document titled "Isolation Barrier Alternatives Analysis - West Lake Landfill Superfund Site".

Over the next several weeks, this agency, with technical support from the U.S. Army Corps of Engineers, will be evaluating the information presented in the document. The Lambert-St Louis International Airport and the Federal Aviation Administration are important stakeholders on this project and as such we invite your input as we make future decisions on construction of the isolation barrier.

Thank you for your engagement on this project as we share a common goal in protecting public health and safety associated with work at the West Lake Landfill Superfund site. I will have my staff set up a time for you to share your input.

Sincerely,  
  
Karl Brooks

Enclosure

cc: The Honorable Chris Koster  
Attorney General of Missouri

Mr. Aaron Schmidt, Deputy Director of Environmental Quality  
Missouri Department of Natural Resources
